

Guneet Singh

2D Animator — Spine 2D — Casino & Mobile Games

guneet.social@gmail.com — +91 6393083589 — [Portfolio Website](#) — [Work Samples](#) — [LinkedIn](#)

PROFESSIONAL SUMMARY

2D Animator with 3 years of experience creating production-ready Spine animations for casino, slot, blackjack, and poker-style games. Contributed to 50+ game projects involving character animation, skeletal rigging, slot symbols, backgrounds, UI motion, feature games, and visual effects. Experienced in Photoshop, After Effects, asset optimization, export validation, and clean animation pipelines for mobile and web-based game environments.

TECHNICAL SKILLS

Animation: Spine 2D Animation, Character Animation, Skeletal Rigging, Mesh Deformation, Slot Symbol Animation, Background Animation, UI Motion, Feature Game Animation, 2.5D Motion

Game Art & FX: Casino Game Animation, Visual Effects, Promotional Animation, Motion Polish, Animation Principles

Production: Asset Optimization, Game-Ready Exports, Export Validation, Runtime Performance Optimization, Clean Asset Pipelines, Developer Handoff

Tools: Spine 2D, Adobe Photoshop, Adobe After Effects

Currently Learning: Cocos Creator

PROFESSIONAL EXPERIENCE

Ruby Seven Studios

Feb 2026 – Present

2D Spine Animator

- Create production-ready Spine animations for Delaware North and Ruby Seven Studios social casino products, including Ember Jackpot Casino, Lucky North Casino, Lucky Loonie Jackpots, and Fantasy Springs Slots.
- Animate characters, slot symbols, backgrounds, intro sequences, rewards, feature games, UI elements, and interactive game assets.
- Serve as the sole animator for a feature game involving dynamic object targeting and player-driven interactions.
- Produce UI motion for login calendars, VIP systems, reward flows, promotional pop-ups, and feature game interfaces.
- Prepare optimized Spine exports and game-ready assets for mobile and web implementation, developer handoff, and runtime performance.
- Collaborate with distributed artists, developers, and technical artists to review work, resolve implementation issues, and maintain visual quality.

Probability Gaming

Aug 2024 – Feb 2026

2D Spine Animator

- Created production-ready Spine animations for casino game characters, symbols, backgrounds, UI elements, and bonus feature assets.
- Built skeletal rigs using structured bone hierarchies, mesh deformation, reusable animation setups, and clean export organization.
- Applied timing, anticipation, squash and stretch, secondary motion, and visual effects to produce polished in-game animation.
- Used Adobe Photoshop and After Effects to prepare animation assets, craft supporting effects, and polish visual presentation.
- Adapted animations to gameplay requirements, art direction, technical limitations, and mobile performance constraints.
- Collaborated with artists and developers throughout the casino game production and review pipeline.

Freelance 2D Animator

Aug 2023 – Dec 2024

- Delivered Spine 2D animation and rigging for casino and slot game projects according to client briefs and production requirements.
- Created character, symbol, UI, background, and feature game animations from layered artwork.
- Managed feedback, revisions, organized project files, and final game-ready animation delivery.

SELECTED PROJECTS & ACHIEVEMENTS

- Contributed animation work to 50+ slot, blackjack, poker, and casino-style game projects.
- Developed an internal WebP Skeleton Viewer with multi-animation previews and customizable backgrounds, improving animation review and comparison workflows.
- Created advanced Spine rigs with simulated 3D-style rotations for slot symbols and character assets.
- Completed full animation production for a slot game within seven days while maintaining production and delivery standards.
- Built reusable, optimized Spine setups with clean timelines, organized assets, and developer-ready exports.

EDUCATION

Bachelor of Computer Applications (BCA)

2021 – 2024
